

# Finally – battery products that meet our standards

Battery operated outdoor power tools have been available for a while. But the technology had not reached the levels of power and efficiency that Husqvarna require to put their name on a product - until now.

Take a look at the Husqvarna Battery Series: a line of products that includes battery powered lawnmowers, rideon mowers, chainsaws, leaf blowers, grass trimmers, brush cutters, high pruners, and hedge trimmers.

Working with battery-driven outdoor machines does not mean you'll have to compromise on runtime. A single charge of the powerful 36V Li-ion battery allows you to work approximately as long as you would on one tank of petrol\*.

*Since the charging time is shorter than the usual working time, having an extra battery will usually enable you to work non-stop.*

2 Batteries & QC330 charger will give continuous use
