

Husqvarna®

READY WHEN YOU ARE

Husqvarna TS 112

Intuitive operation and exceptional cutting results for large open lawns. The compact design enables effortless navigation in narrow passages and compact storage while not in use. A convenient and hassle-free mowing experience thanks to easy access levers and side-by-side pedal placement that enables mowing in reverse. Enjoy signature Husqvarna quality and durability for a garden tractor you can rely on.

FEATURES

- Hour meter for easy control of operating time and service and maintenance intervals.
- Dual headlights at the front for clear visibility when driving in dark conditions.
- Tool-free adjustment of seat position to quickly set a comfortable driving position.
- Equipped with a 95cm side discharge cutting deck.
- Comfortable driving position and operation thanks to the adjustable seat and easy-access controls.
- The cutting deck is equipped with anti-scalp wheels, which reduce the risk of scalping when cutting uneven lawns.
- Compact design for effortless navigation in narrow passages and easy storage while not in use.
- ROS is activated with the start key for quick access to reverse mowing, and to minimise the risk of the function being used unintentionally.
- Fuel level window makes it easy to check the fuel level.
- Lever to engage the cutting deck.
- Dual pedal drive for better drive control and easy, intuitive operation.
- Control levers on only one side make it easy to get in and out of the seat on the other side.
- Additional functionality thanks to the included towing hook which enables the use of many accessories.
- Easy speed and direction control with pedal-operated hydrostatic transmission.
- Easy to get operating under any weather condition and no choking needed. Just turn the key and go.
- Easily accessible cutting height adjustment for improved ergonomics.

Adjustable driver seat

Tool-free adjustment of seat position to quickly set a comfortable driving position.

Hour meter

Hour meter for easy control of operating time and service and maintenance intervals.
